

Yale[®]

British Standard Nightlatch

- Insurance approved and meets BS 3621 Kitemark standard

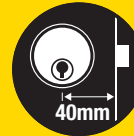

Anti-Drill

Anti-Saw

Anti-Pick

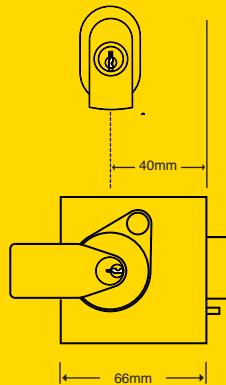

40mm

MAXIMUM SECURITY

What Size Do I Need?

This lock is designed to fit all solid and glass panelled wooden doors where there is a restricted width to mount the lock. The centre of the keyhole must be 40mm from the edge of the door. The overall width of the lock body to be fitted to the inside of the door is 66mm.

Measuring Up

For doors where there is no restriction on width, choose a standard width lock which places the centre of the keyhole 60mm from the edge of the door. For this style of Yale lock in a standard width design, ask your stockist for Yale model PBS1.

Suitable for both left and right handed inward opening doors up to 57mm thick only - latch cannot be reversed.

Fitting Instructions

See in pack for details
